FORTRESS TRIPLE DOOR FEEDER PILLARS

Developed for larger connection requirements, typically 400A and 630A applications, the Triple Door Pillar range combines increased internal capacity with enhanced accessibility, delivering a robust enclosure solution for demanding power distribution installations.

- Larger depth: 600mm
- Increased height: 2-2.2 meters
- 18mm treated exterior grade backboard
- Robust and durable design
- Detachable root section
- Secure Locking

The ideal solution for projects manufactured to face challenges such as:

- 400A power distribution installations
- 630A power distribution installations
- Large-scale feeder pillar applications
- Switchgear installations requiring increased enclosure capacity and access

New options available are larger to accommodate larger cables and metering options.
Images are for illustration purposes only.

SPECIFICATION

Hinge Type	Stainless steel hinge blocks
Lock Type	Three-point barlock fitted as standard (padlockable)
Backboard	18mm treated exterior grade plywood
Pillar IP Rating	IP 43
Earthing	Factory-fitted earth lead between pillar body and door
Material	Hot dip galvanised mild steel
Root Section	Bitumen enriched painted root section - detachable
Installation Features	Ground level indicator for ease of installation
Standards Compliance	Manufactured in accordance with BS EN ISO 1461

OPTIONS

- Customer specification pre-wired solutions available
- Any BS or RAL paint colours supplied as per customer specification
- Factory fitted accessories available such as lighting kits, heater kits and alternative locks available on request
